# Bonifacio Vista

## Senior UI UX Designer

As a Lead UI/UX Designer with 5+ years of experience, I excel in creating user-centered designs, leading teams, and developing design systems. I've managed complex projects that boost user engagement and satisfaction, and I'm passionate about mentoring and driving success in fast-paced environments.

## Experience

### October 2021 - August 2024

Radius Telecoms | Pasig

#### Senior UI UX Designer/Frontend Dev

##### User Research and Analysis:

- Conducting user research, including user interviews, surveys, and usability testing.
- Analyzing user behavior, needs, and pain points to create user personas.
- Collaborating with stakeholders to define the target audience and goals.

##### UI/UX Design:

- Creating wireframes, storyboards, and prototypes to communicate design ideas.
- Designing user interfaces that are aesthetically pleasing, intuitive, and user-friendly.
- Ensuring consistency in design across all platforms and devices.
- Designing responsive layouts for different devices and screen sizes.

##### Collaboration:

- Working closely with product managers, developers, and other designers to ensure a smooth design-to-development process.
- Participating in design reviews and providing constructive feedback to team members.
- Collaborating with stakeholders to ensure design solutions align with business goals and user needs.

##### Usability Testing:

- Conducting and analyzing usability tests to gather feedback on designs.
- Iterating on designs based on user feedback and test results.
- Ensuring that the final product meets high standards of usability and accessibility.

##### Innovation and Trends:

- Keeping up-to-date with the latest design trends, tools, and technologies.
- Experimenting with new design ideas and methodologies to improve user experiences.
- Advocating for user-centric design principles within the organization.

##### Project Management:

- Managing design projects from concept to completion, ensuring deadlines are met.
- Balancing multiple projects and priorities while maintaining a high standard of quality.
- Communicating project progress and design rationale to stakeholders.

##### Accessibility and Inclusivity:

- Designing with accessibility standards in mind to ensure products are usable by all people, including those with disabilities.
- Advocating for inclusive design practices within the team and organization.

### September 2019 - September 2021

Adlib.io | UK Client

#### UI UX Designer/Frontend Dev

- Manage design resources, assigning projects and tasks based on team strengths and workload.
- Ensure that all design work meets the highest quality standards before it is handed off for development or implementation.
- Ensure that designs are accessible to all users, including those with disabilities, by adhering to accessibility standards and best practices.
- Interface with clients or external partners to understand project requirements and deliver design solutions that meet their needs.
- Engage with internal stakeholders and clients to comprehend their needs and provide design solutions.
- Develop creative executions ensuring that all design outputs are user-centric, aesthetically pleasing, and aligned with our clients' brand guidelines.
- Create and evolve visual language for websites based on the scale and scope of the project.
